COURSEWORK

- Computer Science I & II
- Data Structures
- Design of Database Systems
- Web Application Development
- Computer Security
- Scripting II
- Software Engineering
- Computer Systems Admin
- Discrete Mathematics
- Modern System Design & Analysis

EDUCATION

University of Houston Clear Lake

Bachelor of Science in Computer Information Systems

2018-2022

PROGRAMMING/TECHNICAL SKILLS

- C#/.NET, ASP.NET Web API, MVC, Razor Pages
- JavaScript, React, jQuery
- HTML/CSS, XML, Bootstrap 5
- Python
- Git & Github
- SQL, MySQL, Microsoft SQL Server
- Azure App Service, Azure SQL
- AWS Elastic Beanstalk, AWS CodePipeline
- REST API Creation/Consumption
- Docker & Docker Desktop
- macOS, Windows, Linux

PROJECTS

Bug Tracker Web App
C# & ASP.NET Core, Microsoft SQL Server, Azure App Service

- A full-stack web app that lets an organization manage their projects, bugs, employees, and project managers in one place
- App uses C# & ASP.NET Core Razor Pages, HTML/CSS, and a Microsoft SQL Server database
- Features a responsive UI design for desktop and mobile
- Demo link: https://bugtrackerapp.azurewebsites.net/

Project Management REST API
C# & ASP.NET Core Web API, Microsoft SQL Server & Azure SQL

- A REST API that allows a user to interact with a MS SQL Server database to perform CRUD-based operations
- The API lets the user manage projects, bugs, employees, and project manager records and uses a repository design pattern
- Database is hosted on Azure SQL, App is hosted on Azure App Service
- Click here to demo

Horoscope Web App
Python, JavaScript & React, Azure Static Web Apps

- Comprised of a REST API made with Python, and a front-end component made with HTML/CSS and JavaScript/React
- The Python component scrapes a website for horoscope data, while the front-end outputs the user's horoscope asynchronously to the user
- Demo link: https://horoscopeapp.justintruong.studio

WORK EXPERIENCE

Driver & Delivery Driver
Uber/Lyft/Doordash
2015-Current

- Analyzed different market channels for social-events/gatherings to predict busy areas
- Compiled receipts and recorded business miles for tax deductions
- Communicated customer's special needs and requests to kitchen staff

Mobile Sales Consultant
AT&T & Bestbuy
2012-2015

- Collected requirements from customers and provided a tailored cellphone plan based on average monthly data usage
- Managed inventory using an inventory management system
- Troubleshooted devices and transferred data from old to new devices
- Supported and helped train new hires on POS system and how to initiate and close a sale
